

Memex Working Group: Round 4

Exploring Tagging System Use Cases

Date: [[2026-03-24]]

- People show up between 18:00 and 19:00
- Start at 19:00

Basic Intro Speech

- Why are we here?
- Develop a "Community of Practice" that shares and cultivates behaviors of life enhancing knowledge tool use
- Focus is Goals, Plans, and Tools , IN THAT ORDER
- Tools exist to make your life better

Follow up on lessons learned

- Quests with Vox bot
- Integrating the collective-memex into your Obsidian Vault
- Documenting your [[PKMS]] work flow
- Next time is Memex Show and Tell + Focused Discussion TBD
- Shout out the `#epic-knowledge-gardens` channel in Discord

Intros

- What is your name?
- What knowledge garden use case excites you?
- What [[PKMS]] tools are you using?

Select 2 Note Takers for the Meetup

- You are expected to demo and share your notes at the end of the meetup

What are [[Tagging Systems]]?

- Crowd source a definitions and write it on white board
- Working definition:

In information systems, a tag is a keyword or term assigned to a piece of information (such as an Internet bookmark, multimedia, database record, or computer file).

Examples of Tagging Systems

TBD

Crowd Source SPECIFIC Tag Use Cases

- Categorizing Books
- Categorizing Food
- Folders are functionally tags
- A specific folder of files can be used as tags (Paul's [[CypherQL]] Experience)

Share the tags we collectively use

**Crowd source focus for next Memex Working
Group Meeting**

Self Assign Quests

- No more Vox bot, let's come up with a new processes
